

## Bioénergétique et Ingénierie des Protéines

March 23<sup>d</sup>, 2020

To the rector of  
Taras Shevchenko National University of Kyiv  
Academician of NAS of Ukraine  
Prof. Leonid Vasilyevich HUBERSKYI

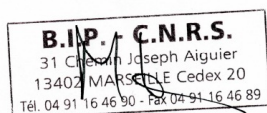

Dear Leonid Vasilyevich,

Laboratory of Bioenergetic and Protein Engineering (UMR 7281, CNRS) expresses deep gratitude to the scientific and pedagogical teams of Taras Shevchenko National University of Kyiv for the high quality of preparation of the Faculty of Chemistry graduates within the educational and scientific training program in the field of knowledge 10 "Natural Sciences", specialty 102 "Chemistry" of the 3<sup>d</sup> level (PhD).

Profound fundamental knowledge combined with experimental skills allows young graduates to become competitive researchers in multiple fields of chemistry and biology. They are up to date with most modern instrumental and computational methods, proficient in foreign languages and have advanced communication skills.

We hope that further cooperation between our organizations will continue being fruitful.

Best Regards,

Dr. Marie-Thérèse GIUDICI-ORTICONI  
Head of the laboratory
